Two weeks before the election, Assisio received a call from a representative of Betway, one of the largest online betting sites in the world. They offered him a strange proposal: they wanted him to work for them as an election consultant. They had seen his predictions and were impressed by his knowledge of Brazilian politics. Assisio was hesitant at first, but the offer was too good to refuse. He accepted the job and started working for Betway.

One of Assisio's new colleagues at Betway was renowned political scientist, Maria Costa. Maria had been studying the Brazilian political scene for years and had a deep understanding of the current election. She was impressed by Assisio's knowledge and saw him as a valuable asset to the team. She decided to work closely with him, and they started to analyze the polls together. As the election day approached, Assisio and Maria noticed something strange. The polls showed

Lula in the lead, but they also showed a significant number of undecided voters. Assisio suspected that something was amiss. He decided to dig deeper and started investigating the odds of a surprise victory for Jair Bolsonaro, the current president.

Assisio's investigation led him to a small website that was barely known in Brazil. It was a site that allowed users to bet on the probability of a candidate winning. The site showed a sudden increase in bets for Bolsonaro, which seemed strange, given the polls showed Lula with a comfortable lead. Assisio saw an opportunity and decided to place a bet on Bolsonaro, with odds of 4.50.

Election day arrived, and the nation anxiously awaited the results. Assisio watched as the votes were counted, and his heart raced as he saw the unexpected happening. Bolsonaro was winning, and it looked like he would take the presidency. Assisio's bet was looking good, and he could hardly believe his luck.
