## **Reino Unido: Graduado de la Universidad de Manchester es condenado por vender medicamentos ilegales en eBay y Amazon**

Un graduado de 9 la Universidad de Manchester fue sentenciado a tres años y medio de prisión por importar y vender medicamentos ilegales en 9 eBay y Amazon.

Antoine Christopher Koliás fue sentenciado el viernes pasado.

Koliás, de 31 años, tiene un título en administración de empresas 9 de la Universidad de Manchester, según el tribunal de Southwark crown court.

## **Venta de medicamentos no autorizados en línea**

Kolias fue procesado 9 después de una investigación de la Agencia Reguladora de Productos Médicos y de Cuidado de la Salud (MHRA, por sus 9 siglas en inglés) que encontró que había estado actuando como distribuidor de un traficante no autorizado de medicamentos, así como 9 operando su propio negocio no autorizado.

Había estado vendiendo sildenafil citrate, el ingrediente activo de Viagra, así como las drogas de 9 clase C tramadol, zopiclone y pregabalin.

Había vendido los productos que contenían sildenafil en las plataformas de comercio electrónico de Amazon 9 y eBay, afirmando que eran un "remedio natural al 100%" y un "tratamiento libre de riesgos" para la disfunción eréctil.

Kolias 9 había diseñado y encargado su propio empaque, vendiendo los productos bajo sus propias marcas: Vital-X, VigoreX y Vowex.

## Investigación y arresto

Kolias 9 llamó la atención por primera vez cuando los oficiales de Aduanas del Reino Unido interceptaron varios paquetes mientras realizaban controles 9 rutinarios en aeropuertos y en el sistema postal.

La unidad de cumplimiento criminal de la MHRA, que recopila y analiza información 9 criminal para identificar actividades ilegales que involucran productos médicos, lanzó una investigación, codificada como Operación Bentley.

En octubre de 2024, buscó 9 dos direcciones residenciales y dos instalaciones de almacenamiento conectadas con Kolias en el norte de Londres y Manchester. En Londres, 9 los agentes de cumplimiento criminal de la MHRA descubrieron 97,000 tabletas, que incluían productos marketed como tratamientos para la disfunción 9 eréctil, así como tramadol y zopiclone. Después de una investigación de tres semanas en mayo, el jurado escuchó que después de 9 comparecer en la corte y mientras estaba en libertad bajo fianza, Kolias reactivó su negocio de medicamentos no autorizados.

Los oficiales 9 de Aduanas del Reino Unido interceptaron cuatro paquetes más, que contenían más de 170,000 dosis en total y estaban destinadas 9 a la dirección de su hermana.

El tribunal escuchó que Kolias había utilizado los detalles personales de un amigo para reactivar 9 su plataforma de ventas en Amazon, desde la cual vendió productos que contenían sildenafil citrate, nuevamente bajo su propia marca 9 en un producto llamado Evoxa.

Kolias fue condenado por 16 cargos relacionados con la distribución de medicamentos ilegales entre el verano 9 de 2024 y octubre de 2024, y entre 2024 y 2024. Estos incluyeron ser cómplice en la evasión de una 9 prohibición sobre la importación de bienes; importar un medicamento de un estado que no es un estado del EEE; y 9 poseer una droga de clase C con la intención de suministrar.

Después de la condena de Kolias, la MHRA emitió una 9 advertencia sobre las técnicas utilizadas por los delincuentes para vender medicamentos ilegalmente en línea, a veces utilizando sitios web diseñados 9 para imitar farmacias o minoristas legítimos, y a veces anunciando a través de plataformas de comercio electrónico o sitios de 9 redes sociales.

"La MHRA aconseja al público que tenga cuidado al comprar medicamentos en línea. Los medicamentos no son bienes de 9 consumo ordinarios y su venta y suministro están estrictamente controlados", dijo un portavoz.

"Los sitios web que operan fuera de la 9 cadena de suministro legal no solo están infringiendo la ley, sino que también están poniendo en riesgo su salud".
