The best thing to do when starting to play is learn the game and get to know all the rules and

basic strategies.

Here, we'll help you learn all the basics to play online blackjack.

First, in blackjack you play against the Dealer to determine which one has the better hand.

To win, you need to get a score closer to 21 than him.

If you or the dealer get more than 21 points, then you both lose automatically.

On the opposite, if you get 21 in your first hand you score a "Blackjack" and win automatically.

It's really hard to get 21 in your opening hand, thus most of the times you'll need to make your way up to 21 asking more cards.

These, are some of the actions you have to get closer to the winning score: Hit: add one card to your hand to get more points.

Stand: if you think your hand is good enough, then you can choose not to get any more cards.

Your score will be set and the winner will be declared.

Double: double your bet.

Surrender: this action depends on the type of Blackjack you are playing.

However, if you have the option you can choose to give away your first two cards and the half of your bet will be refunded.

Video Poker Video Poker is the place where slots and poker join to create something amazing.

With the overall format of slots and the playstyle of poker, you'll play to get the best poker hand.

The main goal is to get the minimum required hand to get a payment; this can change according to the game, so make sure to check the pay table.

If you are familiar with poker, then you'll find Video Poker very simple, but if you don't, then we're here to help you out.

You start with a five card hand, which you can improve changing some cards.

After you change your card –or not– your hand is reviewed.

If you win, you'll have the option of doubling your payment or losing everything in the Double or Nothing feature.

In this special round, you face the dealer to determine who has the highest card.

The dealer's card will be facing up and you can choose between four cards dealt facing down.

If your card is higher than the dealer's, then you win and your payment is doubled.

If you'd like you can play one more round or keep the money.

It's important for you to know which hands help you win and the best part of Video Poker is that some games allow you to have bonus hands.

Royal Flush: 10, Jack, Queen, King and Ace of the same suit.

Straight Flush: five consecutive cards of the same suit.

Four of a Kind: four cards of the same value.

Full House: three cards of the same value and a pair.

Flush: five cards of the same suit.

Straight: five consecutive cards, no matter the suit.
