In this King Casino blog post, we will share some stories from the biggest roulette winners in history. As well as sharing big roulette wins, we'll explain how wins in roulette are made.

What Is The Biggest Win In Roulette?

Roulette has been around since

the 18th century, and over this time, there have been several big winners. One of the biggest recent wins in roulette was won by businessman Pedro Grendene Bartelle. He won an astounding R\$3.5 million in 2024 playing French roulette.

This incredible win was

luckily caught on camera, and if you want to see his reaction, you can view it [here](#).

His bet of R\$100,000 on the number 32 landed him a win of R\$3.5 million, one of the biggest roulette wins in recent history.

For most gamblers, a

win on roulette is generally small to mid-range in size. Big bets sometimes result in some of the biggest wins. Let's go through some of the biggest roulette winners!

winners of roulette. While playing a European roulette game, he won 23 out of 30 spins.

In 1891, he won a fantastic 2 million Francs. He became known as "the man who broke the bank at Monte Carlo" as the casino ran out of money when he won.

Despite people claiming different roulette strategies, such as The Martingale Strategy work, this is not true. Roulette strategies are great if you want to change up your gameplay and provide some structure to your betting.

However, they are not going

to increase your chances of winning big. This is because each number has the same chance of landing on any given spin, and, in the end, the casino always wins.

Every
