A Texas hold 'em match in progress. Hold 'em is a popular form of poker in the USA.

Poker is a game which people play with a normal set (or deck) of 52 cards. Poker is a gambling game which involves some luck, but also some skill. In poker, players make bets against each other depending on the value of their poker hand. Bets are usually made with plastic or ceramic discs called chips. Bets may also be made with coins or cash, but chips are more often used because they are easier to handle and count. At the end of the game, players may swap their chips for money. If the players are not playing for real money, the chips are counted at the end of the game to determine the order of winners.

There are many different kinds of poker. In draw poker, each player is dealt five cards. A player can decide to throw away a number of these cards and then take (draw) new cards to replace them.

In stud poker (for example, seven-card stud), some of each player's cards are laid (face-up) on the table so that the other players can see them. In community card poker (for example, Texas hold 'em), players share some of their cards in the center of the table.[1]

The history of poker

is a matter of some debate. The name of the game likely descended from the French *poque*, which descended from the German *pochen* ('to knock'), but it is not clear whether the origins of poker itself lie with the games bearing those names. It closely resembles the Persian game of *as nas*, and may have been taught to French settlers in New Orleans by Persian sailors. It is commonly regarded as sharing ancestry with the Renaissance game of *primero* and the French *brelan*. The English game *brag* (earlier *bragg*) clearly descended from *brelan* and incorporated bluffing (though the concept was known in other games by that time). It is quite possible that all of these earlier games influenced the development of poker as it exists now.

English actor Joseph

Crowell reported that the game was played in New Orleans in 1829, with a deck of 20 cards, four players betting on which player's hand was the most valuable. Jonathan H. Green's book, *An Exposure of the Arts and Miseries of Gambling* (G. B. Zieber, Philadelphia, 1843), described the spread of the game from there to the rest of the country by Mississippi riverboats, on which gambling was a common pastime.

Soon after

this spread, the full 52-card English deck was used, and the flush was introduced. During the American Civil War, many additions were made, including draw poker, stud poker (the five-card variant), and the straight. Further American developments followed, such as the wild card (around 1875), lowball and split-pot poker (around 1900), and community card poker games (around 1925). Spread of the game to other countries, particularly in Asia, is often attributed to the U.S. military.

The game and

jargon of poker have become important parts of American culture and English culture. Such phrases as *ace in the hole*, *beats me*, *blue chip*, *call the bluff*, *cash in*, *pass the buck*, *poker face*, *stack up*, *up the ante*, *when the chips are down*, *wild card*, and others are used in everyday conversation even by those unaware of their origins at the poker table.

Modern tournament play became popular in American casinos after the World Series of Poker began in 1970. It was also during that decade that the first serious strategy books appeared, notably *The Theory of Poker* by David Sklansky (ISBN 1880685000), *Super System* by Doyle Brunson (ISBN 1580420818), and *The Book of Tells* by Mike Caro (ISBN 0897461002).

Poker became more popular early in the 21st century, largely due to the introduction of online poker and the invention of the hole-card camera which finally turned the game into a spectator sport. Viewers could now follow the action and drama of the game, and broadcasts of poker tournaments such as the World Series of Poker and the World Poker Tour brought in large television audiences.

Game play [change | change source]

Royal Flush in hearts

The game of poker is played in hundreds of variations, but the following overview of game play applies to most of them.

Depending on the game

rules, one or more players may be required to place an initial amount of money into the pot before the cards are dealt. These are called forced bets and come in three forms: antes, blinds, and bring-ins.

Like most card games, the dealer shuffles the deck of cards. The deck is then cut, and the appropriate number of cards are dealt face-down to the players. In a casino a "house" dealer handles the cards for each hand, but a button (any small item used as a marker, also called a *buck*) is rotated among the players to determine the order of dealing and betting in certain games. In a home game, the right to deal the cards typically rotates among the players clockwise, but a button may still

be used.

After the initial deal, the first of what may be several betting rounds begins. Between rounds, the players' hands develop in some way, often by being dealt additional cards or replacing cards previously dealt. During a round of betting, there will always be a current bet amount, which is the total amount of money bet in this round by the player who bet last in this round. To keep better track of this, it is conventional for players to not place their bets directly into the pot (called splashing the pot), but rather place them in front of themselves toward the pot, until the betting round is over. When the round is over, the bets are then gathered into the pot.

After the first betting round is completed (every participating player having called an equal amount), there may be more rounds in which more cards are dealt in various ways, followed by further rounds of betting (into the same central pot). At any time during the first or subsequent betting rounds, if one player makes a bet and all other players fold, the deal ends immediately, the single remaining player is awarded the pot, no cards are shown, no more rounds are dealt, and the next deal begins. This is what makes it possible to bluff.

At the end of the last betting round, if more than one player remains, there is a showdown in which the players reveal their previously hidden cards and evaluate their hands. The player with the best hand according to the poker variant being played wins the pot.

The following are poker hands, from best to worst:

Straight flush : Five cards of the same suit in sequence (if those five are A, K, Q, J, 10; it is a Royal Flush)

: Five cards of the same suit in sequence (if those

five are A, K, Q, J, 10; it is a) Four of a kind : Four cards of the same rank and any one other card

: Four cards of the same rank and any one other card Full house : Three cards of one rank and two of another

: Three cards of one rank and two of another Flush

: Five cards of the same suit

: Five cards of the same suit Straight : Five cards in sequence (for example, 4, 5, 6, 7, 8)

: Five cards in sequence (for example, 4, 5, 6,

7, 8) Three of a kind: Three cards of the same rank

Three cards of the same rank Two

pair: Two cards of one rank and two cards of another

Two cards of one rank and two

cards of another One pair: Two cards of the same rank

Two cards of the same rank High

card: If no one has a pair, the highest card wins

Poker chips [[change](#) | [change source](#)

]

Poker chips are small discs. They made by various materials including molded plastic, colored metal molded clays. They are used in table games as play money. Modern poker traces its roots towards the 1800s, and in those days, players used what you could to help keep a tally. Coins, gold dust and nuggets were used until they considered replacing with something which would indicate them. Thus, the casino chips happen to be introduced within the gambling business.

Poker rooms started using casino chips to

simply manage the cash and then collect charges. In those days, casino chips were

created of ivory, bone, paper wood. However, the most generally used chips were created

of composite clay. One problem made an appearance due to the developing casino chips which was cheating. Some players considered sneaking some chips in their hands. To avoid this, manufacturers created differentiated disks. Consequently, a range of styles was created. With time, other manufacturers could use many other materials for making casino chips, for example, plastic and metal.[2]

Rapper Nelly Preso en Casino de St. Louis por Supuesta Posesión de Éxtasis

El rapero Nelly fue arrestado temprano el miércoles en un casino del área de St. Louis, y la patrulla de carreteras de Missouri informó que un oficial encontró cuatro pastillas de éxtasis ilegales en su posesión. El abogado del rapero afirmó que un oficial "excesivamente entusiasta" lo targeteó y realizó un registro impropio.

Detalles del Arresto

El arresto ocurrió aproximadamente a las 4.45 am, y Nelly, de 49 años, fue detenido y luego puesto en libertad por la policía en Maryland Heights, Missouri, según un breve informe en línea de la patrulla. El suburbio de St. Louis es el hogar del Hollywood casino y hotel, y el abogado de Nelly, Scott Rosenblum, declaró en un comunicado el miércoles por la noche que el rapero, quien creció en la zona, la visita con frecuencia.

Los registros judiciales en línea de Missouri muestran que Nelly, cuyo nombre de nacimiento es Cornell Haynes II, fue citado en junio de 2024 en Maryland Heights por operar un vehículo sin una prueba de seguro adecuada. Un juez emitió una orden de arresto en diciembre de 2024, y permaneció pendiente.

Rosenblum afirmó que Nelly había ganado varias jackpots en el casino y cuando intentó

cobrarlas, el oficial que habría supervisado la transacción "necesariamente" buscó órdenes de arresto. Una vez que el oficial encontró la orden de arresto pendiente, esposó las manos de Nelly a la espalda y "sintió la necesidad" de "pasearlo por el casino frente a otros clientes", según Rosenblum.

Reacción del Abogado de Nelly

El abogado de Nelly calificó lo que el oficial encontró como una supuesta "éxtasis" y afirmó que el oficial no tenía causa probable para justificar la búsqueda. Nelly no fue notificado de la orden de arresto y no sabía de ella, según Rosenblum.

"Estoy 100% seguro de que este caso no irá a ninguna parte", dijo Rosenblum. "Y estaremos pidiendo una investigación sobre la conducta de este oficial".

El informe de la patrulla de carreteras no proporcionó detalles sobre el arresto, y la policía de Maryland Heights no respondió a una llamada el miércoles en busca de comentarios.

Rosenblum dijo que en circunstancias similares, "cualquier otro ciudadano habría sido informado para abordarlo y habría sido permitido continuar su camino".

La Carrera de Nelly

Nelly, un tres veces ganador del Grammy, es conocido por éxitos como Hot in Herre y Just A Dream. Ha tenido cuatro éxitos número uno y ha recibido nueve premios Billboard Music Awards. Recientemente terminó una serie de presentaciones con Janet Jackson como invitado especial en su gira.

Ganó premios Grammy en 2002 por la mejor colaboración rap/cantada y el mejor desempeño masculino de rap en solitario, y su Nellyville fue nominado ese año para el mejor álbum de rap y el álbum del año. También ganó un Grammy al año siguiente por el mejor desempeño de rap en grupo o dúo por su colaboración con P Diddy, Shake Ya Tailfeather.

Más allá de su carrera discográfica, Nelly ha aparecido en varias películas y series de televisión, incluyendo la película deportiva The Longest Yard y una serie de realidad de BET que presenta a su familia.
