contente:

Match Winner is a betting option that requires you to predict which eSports team will win the match. For instance, if Team Aster is playing a Dota 2 match with Team Nigma, the Match Winner market requires you to predict which one will win the event. If you choose Team Nigma and they win the match, you win the bet.

Real money betting is the simplest form of betting on esports and is exactly like traditional sports betting. It's simply a case of picking the tournament or event you are interested in, choose your market and match, and place your esports bet. All you have to do then is wait for the results!
