The next General Election isn't

due until January 2025 so it may well be another couple of years at least until we see the next election take place in the UK. An early election may well be called but that's usually chosen by the Prime Minister and it's doubtful that Rishi Sunak will want to do that. Bookies say that Labour will win the most seats at the next General Election with

odds given of 1/2 that they do so. Smarkets give a 66.7% chance of it happening with Labour expected to have a big chance of gaining massively at the next General Election.

Starmer 6/4 Favourite to be Prime Minister after the next General Election!

A really

interesting betting market on who would be the next prime minister after the Next General Election. We have seen betting on the Next Prime Minister and Next Conservative Party leader, but this market has the added element of taking into consideration the Next General Election, whenever that might be if not as per the schedule in 2025. The interesting part of this betting market found on smarkets is that Labour Leader Kier Starmer is not only the favourite in the betting, but the bookmakers have made him a clear favourite with double the probability of either Boris Johnson or Rishi Sunak.

on Sunday in Manchester and as we go into it, the future looks [I'd better not use 'rose'] bright for the Conservatives with betting sites offering a range of betting markets across the political betting spectrum. It would seem that if the odds are right, there is a 30% chance Boris Johnson will be in charge when the Conservatives win the next general election in 2024.

Sunak to Win the Next General Election

As Chancellor, one would expect Rishi Sunak to

be in the news a great deal, and this weekend is no exception as details of granted planning permission for his home are in the news. Whilst that may be completed in the short term, Sunak can look forward to bookmakers' confidence that he is most likely to be Conservative leader and the next prime minister at some point from 2024 onwards if the correct betting odds probabilities are accurate.
