Lowball or low poker is a variant of poker in which the normal ranking of hands is inverted. Several variations of lowball poker exist, differing in whether aces are treated as high cards or low cards, and whether straights and flushes are used.

Low-poker ranking [edit]

Lowball inverts the normal ranking of poker hands. There are three methods of ranking low hands, called ace-to-five low, deuce-to-seven low, and ace-to-six low. The 'ace-to-five' method is most common. A sub-variant within this category is 'high-low poker', in which the highest and lowest hands split the pot, with the highest hand taking any odd chips if the pot does not divide equally. Sometimes straights and/or flushes count in determining which hand is highest but not in determining which hand is lowest, being reckoned as a no-pair hand in the latter instance, so that a player with such a holding can win both ways and thus take the entire pot.

Lowball variants [edit]

The most popular forms of lowball are ace-to-five lowball (also known as California lowball), and deuce-to-seven lowball (also known as Kansas City lowball). Ace-to-five lowball gets its name because the best hand at that form is 5-4-3-2-A. In ace-to-five lowball straights and flushes do not prevent a hand from being low. You win by simply having the five lowest cards. Deuce-to seven lowball gets its name because the best hand at that form is 7-5-4-3-2 (not of the same suit).[1] Ace-to-five low is the most common method for evaluating low hands in poker, nearly universal in U.S. casinos, especially in high-low split games.

As in all low hand games, pairs count against the player. That is, any hand with no pair defeats any hand with a pair; one pair hands defeat two pair or three of a kind, etc. No-pair hands are compared starting with the highest-ranking card, just as in high poker, except that the high hand loses. In ace-to-five low, straights and flushes are ignored, and aces play as the lowest card. For example, the hand 8-5-4-3-2 defeats 9-7-6-4-3, because eight-high is lower than nine-high. The hand 7-6-5-4-3 defeats both, because seven-high is lower still, even though it would be a straight if played for high. Aces are low, so 8-5-4-3-A defeats 8-5-4-3-2. Also, A-A-9-5-3 (a pair of aces) defeats 2-2-5-4-3 (a pair of deuces), but both of those would lose to any no-pair hand such as K-J-8-6-4. In the rare event that hands with pairs tie, kickers are used just as in high poker (but reversed): 3-3-6-4-2 defeats 3-3-6-5-A.

This is called ace-to-five low because the lowest (and therefore best) possible hand is 5-4-3-2-A,

called a "wheel". The next best possible hand is 6-4-3-2-A, followed by 6-5-3-2-A, 6-5-4-2-A, 6-5-4-3-A, 6-5-4-3-2, 7-4-3-2-A, 7-5-3-2-A, etc.

When speaking, low hands are referred to by their highest-ranking card or cards. Any nine-high hand can be called "a nine", and is defeated by any "eight". Two cards are frequently used: the hand 8-6-5-4-2 can be called "an eight-six" and will defeat "an eight-seven" such as 8-7-5-4-A. Another common notation is calling a particular low hand "smooth" or "rough". A smooth low hand is one where the remaining cards after the highest card are themselves very low; a rough low hand is one where the remaining cards are high. For instance, 8-7-6-3-A would be referred to as a "rough eight", but 8-4-3-2-A would be referred to as a "smooth eight". Some players refer to a hand containing a 4-3-2-A (in ace-to-five low or ace-to-six low) or a 5-4-3-2 (in deuce-to-seven low) as a "nut" (thus, in ace-to-five or ace-to-six, a 7-4-3-2-A would be called a "seven nut"). High-low split games with ace-to-five low are usually played cards speak, that is, without a declaration. Frequently a qualifier is required for low (typically 8-high or 9-high). Some hands (particularly small straights and flushes) may be both the low hand and the high hand, and are particularly powerful (or particularly dangerous if they are mediocre both ways). Winning both halves of the pot in a split-pot game is called "scooping" or "hogging" the pot. The perfect hand in such a game is called a "steel wheel", 5-4-3-2-A of one suit, which plays both as perfect low and a straight flush high. Note that it is possible—though unlikely—to have this hand and still lose money. If the pot has three players, and one other player has a mixed-suit wheel, and a third has better straight flush, the higher straight flush wins the high half of the pot, and the two wheels split the low half, hence the steel wheel wins only a quarter of a three-way pot.

Ace-to-five lowball, a five-card draw variant, is often played with a joker added to the deck. The joker plays as the lowest card not already present in the hand (in other words, it is a wild card): 7-5-4-Joker-A, for example, the joker plays as a 2. This can cause some interesting effects for high-low split games. Let's say that Alice has 6-5-4-3-2 (called a "straight six")--a reasonably good hand for both high and low. Burt has Joker-6-5-4-3. By applying the rule for wild cards in straights, Burt's joker plays as a 7 for high, giving him a seven-high straight to defeat Alice's six-high straight. For low, the joker plays as an ace—the lowest card not in Burt's hand—and his hand also defeats Alice for low, because his low hand is 6-5-4-3-A, lower than her straight six by one notch. Jokers are very powerful in high-low split games.

Wheel [edit]

A wheel or bicycle is the poker hand 5-4-3-2-A, regardless of suit, which is a five-high straight, the lowest-ranking of the straights.

In ace-to-five low poker, where aces are allowed to play as low and straights and flushes do not count against a hand's "low" status, this is the best possible hand. In high/low split games, it is both the best possible low hand and a competitive high hand. The best deuce-to-seven low hand, 7-5-4-3-2, is also sometimes called "the wheel".

Ace-to-six low is not as commonly used as the ace-to-five low method, but it is common among home games in the eastern region of the United States, some parts of the mid-west, and also common in the United Kingdom (it is the traditional ranking of London lowball, a stud poker variant).

As in all lowball games, pairs and trips are bad: that is, any hand with no pair defeats any hand with a pair; one pair hands defeat two pair or trips, etc. No-pair hands are compared starting with the highest-ranking card, just as in high poker, except that the high hand loses. In ace-to-six low, straights and flushes are accounted for (as compared to Ace-to-five) and count as high (and are therefore bad), and aces play as the lowest card.

For example, the hand 8-5-4-3-2 defeats 9-7-6-4-3, because eight-high is lower than nine-high. The hand 7-6-5-4-2 defeats both, because seven-high is lower still. The hand 7-6-5-4-3 would lose, because it is a straight. Aces are low, so 8-5-4-3-A defeats 8-5-4-3-2. Also, A-A-9-5-3 (a pair of aces) defeats 2-2-5-4-3 (a pair of deuces), but both of those would lose to any no-pair hand such as K-J-8-6-4. In the rare event that hands with pairs tie, kickers are used just as in high poker (but reversed): 3-3-6-4-2 defeats 3-3-6-5-A.

It is called ace-to-six low because the best possible hand is 6-4-3-2-A (also known as a Chicago

Wheel or a 64), followed by 6-5-3-2-A, 6-5-4-2-A, 6-5-4-3-A, 7-4-3-2-A, 7-5-3-2-A, etc. When speaking, low hands are referred to by their highest-ranking card or cards. Any nine-high hand can be called "a nine", and is defeated by any "eight". Two cards are frequently used: the hand 8-6-5-4-2 can be called "an eight-six" and will defeat "an eight-seven" such as 8-7-5-4-A. A wild card plays as whatever rank would make the lowest hand. Thus, in 6-5-Joker-2-A, the joker plays as a 3, while in Joker-5-4-3-2 it would play as a 7 (an ace or six would make a straight). High-low split games with ace-to-six low are usually played with a declaration.

Deuce-to-seven low is often called Kansas City lowball (the no-limit single-draw variation) or just "low poker". It is almost the direct opposite of standard poker: high hand loses. It is not as commonly used as the ace-to-five low method.

As in all lowball games, pairs and trips are bad: that is, any hand with no pair defeats any hand with a pair; one pair hands defeat two pair or trips, etc. No-pair hands are compared starting with the highest-ranking card, just as in high poker, except that the high hand loses. In deuce-to-seven low, straights and flushes count as high (and are therefore bad). Aces are always high (and therefore bad).

For example, the hand 8-5-4-3-2 defeats 9-7-6-4-3, because eight-high is lower than nine-high. The hand 7-6-5-4-2 defeats both, because seven-high is lower still. The hand 7-6-5-4-3 would lose, because it is a straight. Aces are high, so Q-8-5-4-3 defeats A-8-5-4-3. In the rare event that hands with pairs tie, kickers are used just as in high poker (but reversed): 3-3-6-4-2 defeats 3-3-6-5-2.

Since the ace always plays high, A-5-4-3-2 (also called the Nut Ace) is not considered a straight; it is simply ace-high no pair (it would therefore lose to any king-high, but would defeat A-6-4-3-2). The best possible hand is 7-5-4-3-2 (hence the name deuce-to-seven low), followed by 7-6-4-3-2, 7-6-5-3-2, 7-6-5-4-2, 8-5-4-3-2, 8-6-4-3-2, etc. Hands are sometimes referred to by their absolute rank, e.g. 7-5-4-3-2 (#1, said 'number one', see table).

Hand Name (#) Other Name 7-5-4-3-2 #1 Seven perfect, The nuts, Number one, The wheel 7-6-4-3-2 #2 7-6-5-3-2 #3 7-6-5-4-2 #4 8-5-4-3-2 #5 Nut Eight, Eight perfect 8-6-4-3-2 #6 8-6-5-3-2 #7 8-6-5-4-2 #8 8-6-5-4-3 #9 Rough eighty-six 8-7-4-3-2 #10 Eighty-seven smooth 8-7-5-3-2 #11 8-7-5-4-2 #12 Average eight 8-7-5-4-3 #13 8-7-6-3-2 #14 8-7-6-4-2 #15 8-7-6-4-3 #16 8-7-6-5-2 #17 8-7-6-5-3 #18 Rough eighty-seven, The Dave P. 9-5-4-3-2 #19 Nut Nine, Nine perfect

When speaking, low hands are referred to by their highest-ranking card or cards. Any nine-high hand can be called "a nine", and is defeated by any "eight". Two cards are frequently used: the hand 8-6-5-4-2 can be called "an eight-six" and will defeat "an eight-seven" such as 8-7-5-4-2. Another common notation is calling a particular low hand "smooth" or "rough". A smooth low hand is one where the remaining cards after the highest card are themselves very low; a rough low hand is one where the remaining cards are high. For instance, 8-7-6-4-2 would be referred to as a "rough eight", but 8-5-4-3-2 would be referred to as a "smooth eight".

Wild cards are rarely used in deuce-to-seven games, but if used they play as whatever rank would make the lowest hand. Thus, in 7-6-Joker-3-2, the joker plays as a 4, while in Joker-5-4-3-2 it would play as a 7 (a six would make a straight).

High-low split games with deuce-to-seven low are usually played with a declaration.

Entenda os Horários que o Tigre Paga no OneBet

No mundo dos cassinos online, é importante conhecer os horários em onabet roleta que o "tigre" paga no OneBet. Mas o que isso realmente significa? Neste artigo, vamos explicar tudo o que você precisa saber sobre os horários de pagamento no OneBet, para que possa maximizar suas chances de ganhar na onabet roleta próxima partida.

O que é o "tigre" no OneBet?

Em termos de cassino online, "tigre" é apenas um termo informal para se referir a um grande ganho ou jackpot. No OneBet, existem diferentes jogos em onabet roleta que você pode ganhar um prêmio em onabet roleta dinheiro, e às vezes esses prêmios podem ser muito elevados. Então, quando alguém fala sobre o "tigre" no OneBet, eles estão se referindo a esses grandes prêmios em onabet roleta dinheiro.

Quando o "tigre" paga no OneBet?

Agora que sabemos o que é o "tigre" no OneBet, vamos discutir os horários de pagamento. Infelizmente, não há uma resposta simples para isso, pois os horários de pagamento podem variar de acordo com o jogo. Alguns jogos podem pagar o "tigre" a qualquer momento, enquanto outros podem ter horários específicos em onabet roleta que os pagamentos são feitos. É importante verificar as regras de cada jogo individualmente para obter informações precisas sobre os horários de pagamento.

Como maximizar suas chances de ganhar o "tigre" no OneBet?

Existem algumas coisas que você pode fazer para maximizar suas chances de ganhar o "tigre" no OneBet. Em primeiro lugar, é importante escolher jogos que ofereçam os maiores prêmios em onabet roleta dinheiro. Alguns jogos terão prêmios muito menores do que outros, então é importante escolher cuidadosamente. Em segundo lugar, é importante jogar com frequência. Quanto mais você joga, maiores serão suas chances de ganhar o "tigre". Por fim, é importante lembrar de se divertir. O jogo deve ser uma atividade divertida e emocionante, então não se esqueça de desfrutar do processo.

Conclusão

Em resumo, o "tigre" no OneBet se refere a grandes ganhos ou jackpots em onabet roleta diferentes jogos de cassino online. Os horários de pagamento podem variar de acordo com o jogo, então é importante verificar as regras de cada jogo individualmente. Para maximizar suas chances de ganhar o "tigre", é recomendável escolher jogos com os maiores prêmios em onabet roleta dinheiro, jogar com frequência e se divertir.

Yuka Saso gana el BR Open femenino de 2024 en una emocionante jornada final en Lancaster Country Club

Yuka Saso de Japón superó un cuatro putt inicial para remontar un déficit de tres golpes y ganar su segundo título del BR Open femenino en una jornada final dramática en Lancaster Country Club.

Minjee Lee, Wichanee Meechai y Andrea Lee compartían el liderato antes de la ronda final y las posibilidades de Saso de alcanzarlas sufrieron un duro golpe cuando siguió un birdie en el hoyo 2 con un cuatro putt en el hoyo 6 para un doble bogey.

Sin embargo, Saso se estabilizó con cinco birdies consecutivos antes de anotar birdies en el hoyo 12, 13, 15 y 16 para sellar efectivamente la victoria. Una ronda final de 68 le dio a la jugadora de 22 años una puntuación ganadora de cuatro bajo par, tres golpes por delante de su compatriota Hinako Shibuno.

Fueron las únicas dos jugadoras que finalizaron por debajo del par. Andrea Lee terminó empatada en el tercer lugar con su compatriota estadounidense Ally Ewing en el par, Ewing remontó con una ronda de 66.

Meechai tuvo una peor ronda final con un 77 y Minjee Lee terminó con una ronda de 78. Saso es la tercera jugadora en la historia después de Pak Se-ri y Chun In-gee en ganar campeonatos importantes como sus dos primeros títulos del LPGA Tour.

Reacciones de los ganadores

"Estoy muy feliz", dijo Saso. "Ganar en 2024 representó a Filipinas. Creo que pude devolverle algo a mi mamá. Este año pude representar a Japón y creo que pude darle algo a mi papá. Estoy muy feliz de que pude hacerlo".

"Es solo una sensación maravillosa que pude darles a mis padres de la misma manera. Desde 2024 no he ganado. Creo que solo lo hace más especial después de una larga espera y no esperaba ganar el BR Women's Open, igual que la última vez".

"Creo que realmente lo quería, no solo para obtener una segunda victoria sino también para probarme algo a mí misma. No he ganado en dos años y medio o tres años. Definitivamente tuve una pequeña duda si podría volver a ganar o si no volvería a ganar. Pero pude probarme un poco a mí misma".

Robert MacIntyre gana su primer título del PGA Tour en el RBC Canadian Open

El escocés Robert MacIntyre se recuperó de un inicio titubeante y resistió la presión de varios retadores para ganar su primer título del PGA Tour en el RBC Canadian Open. MacIntyre firmó una ronda final de 68 en el Hamilton Golf and Country Club para terminar 16 bajo par, un golpe por delante del favorito local Ben Griffin.

Griffin había acercado el marcador con birdies en los hoyos 15, 16 y 17 para acercarse a un golpe de su compañero de juego, pero no pudo conseguir un cuarto birdie consecutivo en el hoyo 18 para forzar un desempate. Eso dejó a MacIntyre con el lujo de poner dos veces desde 10 pies para la victoria antes de abrazar a su padre Dougie, quien había sido llamado de último momento para caddie.

Preguntado por qué estaba tan emocional con la victoria, MacIntyre señaló a su padre mientras le decía a CBS: "Por esto. Realmente estoy sin palabras para ser honesto. Es todo para mí y mi familia, mi novia, mi equipo. No puedo creer que lo haya logrado con él en la bolsa. Estoy llorando de alegría pero también estoy riendo porque no pensé que fuera posible".

MacIntyre había visto cómo su ventaja de cuatro golpes se esfumaba en el espacio de cuatro hoyos después de bogeys en el hoyo 1 y birdies consecutivos de Mackenzie Hughes en los primeros tres hoyos.

Sin embargo, MacIntyre respondió de manera brillante con birdies en el hoyo 4, 7 y 8 para recuperar el control del evento de £7.4 millones, a pesar de tener que pedir en varias ocasiones que se moviera un dron utilizado para la cobertura televisiva antes de finalmente conseguir su deseo.

Otro birdie en el hoyo 11 estuvo seguido de un golpe de salida desviado en el agua en el hoyo 12 y otro bogey en el hoyo 13, lo que abrió la puerta para los perseguidores, pero la estrella del Ryder Cup selló la victoria con un birdie en el hoyo 15 y tres pares consecutivos.
