### Mobile Sites vs. Native

#### Apps

These days, there is very little difference in terms of performance between a well-optimised mobile site and a native application. While there might be a slight advantage in performance for a native app, you might want to offset that against the inconvenience of downloading an app and keeping it updated, as well as the variation in user experience.

If you use an iOS

device, you can find your sports betting app in the App store. Almost all bookies will have native apps for iOS available for download, and downloading is as simple as pressing a button.

#### Sports Betting Apps for Android

Downloading an app for your Android

device is just as straightforward as for an iOS device. Simply go to the Google Play Store and you will find the same range of apps as you would on the Apple App Store.

We've listed below some of the best sports betting apps available for Android.

requirements and version numbers for the latest sports betting apps available for Android. As long as you have a relatively recent device, you should be able to enjoy native apps on your Android phone or tablet.

#### Mobile Sports Betting Websites

These days,

all websites are designed to work across a multitude of mobile devices without any impact on performance. There are no reputable operators, or indeed really any businesses on the internet that do not follow this fundamental principle.
